International Association for Falconry and Conservation of Birds of Prey
Member of IUCN

Report from Spain: Dr Javier Ceballos

Spain has two IAF member associations. Since 1982 the Spanish Association for Falconry (now called AECCA) and since 1999 "Alicantina de Cetrería" the Alicante's Association for Falconry.

The AECCA's new board debuted on 10 November 2012. Its new president, Andrés Lopez, has initiated significant actions. Among other highlights are his interest in improving relations with the IAF and offering collaboration in international cooperation for the benefit of falconry.

Both associations, AECCA and Alicantina de Cetrería, organize hunting days and are working for the recognition of falconry as a way of hunting. It should be remembered that in Spain there has been a proliferation replacing falconry's hunting by the use of pigeons. This is hawk training instead of falconry. Many participate in competitions with numerous public and media people attending. AECCA from the beginning has been organizing a few hunting days per year in different parts of Spain.

In 2012 the Coto was chosen in Villanueva de Alcardete (Toledo). It brought together some thirty birds and a large number of fans. The "Alicantina de Cetrería" organizes a hunting day each month. Members practicing principally short-wings flights over rabbit and hare. They enjoy exceptional permission to hunt all year for damage to agriculture in over 5,000 km² of vegetable patches.

During the year 2012 two numbers corresponding to the perch have been published, and an Annual. The publications reaching nearly 1000 members who are already in AECC. The authors are prestigious falconers at national and international level. The result is a publication reference in the sector.

have been asked by our Director to work with the HB to improve communications between these two bodies. Subsequently, we have had recent changes within the British Falconers' Club. Nick Havemann stood down as Director due to ill health and has been replaced by Martin Standley. Our President, Roger Upton, is stepping down at our AGM in October. We have not always happy with the way the Hawk Board works, mainly because they are not always unbiased in a completely unbiased way. British falconers report I have tried to show their role in a complete manner to the presentation to this have attacked the presentation to do so. I at the AGM we were unable to do so. I that falconers do not approve of. We have sometimes they are representing groups with government bodies and it is represented all hawk keepers to government Hawk Board works, mainly because they are not always happy with the way the Hawk Board, currently enjoys some differences of opinion in the past with the Hawk Board, currently enjoy a good relationship with them. The HB are some differences of opinion in the past Board and IAF. Although we have had communication between the BFC, Hawk Board has been concerned by the lack of The BFC has been deteriorating health.

IAF AGM Walkensward 19th to 23rd

Report from United Kingdom: Mark Upton**Delegate of Spain to the IAF
Dr. Javier Ceballos**

The next days October 31, 1, 2 and 3 November will develop "Falconry Days" Culture, Hunting and Conservation - AECC 2013". Under the framework of AECC 2013, will give talks on falconry with speakers from several countries. We will have an exhibition of works of art of falconry theme, the unusual days of hunting photo competition ... As we move through the organization ... will be incorporated into the event, our web site www.aeccaa.org everything related to the event.

The event, will give talks on falconry with speakers from several countries. We will have an exhibition of works of art of falconry theme, the unusual days of hunting photo competition ... As we move through the organization ... will be incorporated into the event, our web site www.aeccaa.org everything related to the event.

AECCA try to be present at major exhibitions of falconry and hunting in Spain. In 2012 participated with a stand in FICAR (International Exhibition of Arms and Hunting). We managed to disclose falconry to the public and to

AECCA has initiated a series of training talks to environmental agents of the Guardia Civil, SEPRONA to know closer to falconry. Spain has 17 different regulations of novice falconers. AECCA has initiated a series of training Humanity, the Federation or the training of falconry, as Intangible Cultural Heritage of most affect our national and international falconry, as Andalusian Hunting Federation of whom was AECC, regional associations of various entities and individuals, among We were treated to the hottest topics that of the discussion at the end of the day. Speakers participated in the presentation of the use of hybrids, claiming a possible ban the use of hybrids, master based in Spain. Andres Lopez Javier Ceballos and Nikolaus, German aguillero master based with a wide experience and urgent more restrictive falconry legislation, Luis Souto, English falconer associative Andalusia, one of the communities with Velarde, author of Flying Falcons, Josee AECC, will be held annually in Andalucia few days of talks. In 2012 the guest speakers were Ed Pichler and Ricardo falconry. This involves a lot of inequalities between them and other communities. on hunting and consequently also other hunters, showing the falconers heritage through equipment, books and paintings, as well as raising awareness of the association and its activities.

Working with regional associations and Andalusian Hunting Federation (FAC) with the falconry legislation about hybrids
